

30 November 2015

Dear Mr. Jeff Heimbold,

I want to extend my sincere appreciation to you and your entire team for the outstanding support you provided the Joint Communications Support Element during the conduct of the 35th Annual LTC George C. Mattar Memorial Relay Race on the 20th of November, 2015. The integrated configuration of Audio-Visual Systems, GPS batons and Social Media feeds displayed on the huge video wall was absolutely superb and enhanced the entire atmosphere of this year's event.

The professionalism of you and your crew and your willingness to ensure this event went off without a hitch was noted by all. I am also cognizant of the fact that all of this support was provided on a volunteer basis, which made your efforts even more impressive.

Again, I want to extend my heartfelt thanks for your effort on behalf of the Joint Enabling Capabilities Command and the Joint Communications Support Element. Professionals such as yourself are never taken for granted and your enthusiasm for the event and support to our military members and their families was noteworthy.

Sincerely,

SAM C. BARRETT
Brigadier General, USAF
